1. DETAILS OF THE OFFERS

1.1 Entitlement Issue Offer

The Company is making a pro-rata non-renounceable entitlement issue comprised of new fully paid ordinary Shares in the capital of the Company (**New Shares**) on the basis of one (1) New Share for every one (1) existing Share held at the Record Date, at an issue price of \$0.002 per New Share, together with 1 free attaching unlisted Option (exercisable at \$0.002 and having an expiry of 3 years from the date of issue) (**New Options**) for every 1 New Share subscribed for and issued.

Based on the capital structure of the Company as at the date of this Prospectus, approximately 467,743,433 New Shares and 467,743,433 New Options will be issued pursuant to the Entitlement Issue Offer to raise approximately \$935,487 (before costs). No funds will be raised from the issue of the New Options.

All of the New Shares offered under the Entitlement Issue Offer will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 4.1 for further information regarding the rights and liabilities attaching to Shares.

The New Options will be exercisable at \$0.002 and expire 3 years from the date of issue, and will otherwise be issued on the terms set out in Section 4.2 of this Prospectus (being the same terms as all other Options offered under this Prospectus). The Company will not apply for quotation of the New Options issued pursuant to this Prospectus.

Details of the purpose and effect of the Entitlement Issue Offer and the proposed use of funds raised are set out in Section 3.

The Entitlement Issue Offer is fully underwritten by CPS (**Underwriter**). Refer to Section 5.4 for a summary of the terms of the Underwriting Agreement. The Underwriter has entered into a sub-underwriting agreement with Philip Re, a Director of the Company. Refer to Section 5.5 for a summary of the terms of the sub-underwriting agreement.

CPS Capital Pty Ltd has been appointed as lead manager to the Entitlement Issue Offer (**Lead Manager**). Refer to Section 5.6 for a summary of the terms of the Lead Manager Mandate.

1.2 The Lead Manager Options Offer

The Lead Manager Options Offer is an offer of up to 200,000,000 New Options to the Lead Manager (or their nominees), subject to shareholder approval, in part consideration for services provided by the Lead Manager in connection with the Entitlement Issue Offer.

Subject to shareholder approval, the New Options offered under the Lead Manager Options Offer will be issued on the terms set out in Section 4.2 of this Prospectus (being the same terms as all other New Options offered under this Prospectus). The Company will not apply for quotation of the New Options issued pursuant to this Prospectus.

All of the Shares issued upon the exercise of the Lead Manager Options will rank equally with the Shares on issue at the date of this Prospectus. Refer to Section 4.1 for further information regarding the rights and liabilities attaching to the Shares underlying the Lead Manager Options.

Only the Lead Manager (or its nominee/s) may apply under the Lead Manager Options Offer. A personalised Lead Manager Options Offer Application Form in relation to the Lead Manager Options Offer will be issued to the Lead Manager together with a copy of this

Prospectus. You should not complete a Lead Manager Options Offer Application Form unless specifically directed to do so by the Company.

1.3 Minimum Subscription

There is no minimum subscription under the Offers.

1.4 Opening and Closing Dates

The Offers will open for receipt of acceptances on 24 March 2025.

The Offers will close at 5:00pm WST on 3 April 2025, or such later date as the Directors, in their absolute discretion and subject to compliance with the Listing Rules, may determine and provided that the Company gives ASX notice of the change at least three (3) Business Days prior to the Closing Date.

1.5 How to Accept the Offers

(a) Entitlement Issue Offer

The number of Securities to which Eligible Shareholders are entitled is shown on the personalised Entitlement and Acceptance Form which will be despatched to Shareholders.

(i) What Eligible Shareholders may do

Eligible Shareholder may participate in the Entitlement Issue Offer as follows:

- (A) if you wish to accept your **full** Entitlement, pay the application monies for the amount indicated on your Entitlement and Acceptance Form (in full) by BPAY or Electronic Funds Transfer (**EFT**), so that it is received by no later than 5:00pm (WST) on the Closing Date (note, there is no need to return the Entitlement and Acceptance Form to the Company); or
- (B) if you only wish to accept **part** of your Entitlement, pay the appropriate application monies, by BPAY or EFT so that is received no later than 5:00pm (WST) on the Closing Date (note, there is no need to return the Entitlement and Acceptance Form to the Company); or
- (C) if you do not wish to accept all or part of your Entitlement, you are not obliged to do anything.

(ii) Payment options

(A) BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (1) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form; and

- (2) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Securities which is covered in full by your application monies.

If you have more than one holding of Securities and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those holdings only use the unique customer reference number (**CRN**) specific to that holding as set out in the applicable Entitlement and Acceptance Form. Do not use the same CRN for more than one of your holdings. This can result in your application monies being applied to your Entitlement in respect of only one of your holdings (with the result that any application in respect of your remaining holdings will not be valid).

(B) Electronic Funds Transfer

For payment by EFT, please follow the instructions on the Entitlement and Acceptance Form. Multiple acceptances must be paid separately. You should be aware of your financial institution's cut-off time and any associated fees with processing an EFT. It is your responsibility to ensure funds are submitted correctly so that they are received by the Closing Date and time. Please note that should you choose to pay by EFT:

- (1) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form; and
- (2) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Securities which is covered in full by your application monies.

Please ensure you use your unique payment reference number located on the Entitlement and Acceptance Form. This will ensure your payment is processed correctly. Failure to do so may result in your funds not being allocated to your application and your Entitlement subsequently not being issued.

It is your responsibility to ensure that your payment of application monies is received by the share registry by no later than 5:00 pm (WST) on the Closing Date. You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment. Any application monies received for more than your final allocation of Securities will be refunded. No interest will be paid on any application monies received or refunded.

Paying any application monies by BPAY or EFT will be taken to constitute a representation by you that:

- (i) you have received a copy of this Prospectus (whether in electronic or physical form) and the accompanying Entitlement and Acceptance Form, and read them both in their entirety; and
- (ii) you acknowledge that once a BPAY® or EFT payment instruction is given in relation to any application monies, the application may not be varied or withdrawn except as required by law.

(b) **Lead Manager Options Offer**

The Lead Manager Options Offer will only be extended to CPS. A Lead Manager Options Offer Application Form will be provided by the Company to CPS.

1.6 Non-renounceable

The Offers are non-renounceable. Accordingly, a Shareholder or Optionholder may not sell or transfer all or part of their Entitlement.

1.7 Underwriting and sub-underwriting

The Entitlement Issue Offer is fully underwritten by CPS. Refer to Section 5.4 for details regarding the terms of the Underwriting Agreement. As at the date of this Prospectus, the Underwriter has entered into a sub-underwriting agreement in respect of the Shortfall with Director, Philip Re (**Director Sub-Underwriting Agreement**). The Underwriter may also enter into sub-underwriting agreements in respect of the Entitlement Issue Offer with various other unrelated sub-underwriters to take up the Shortfall.

Refer to Section 5.5 for further details of the Director Sub-Underwriting Agreement. The Company intends to rely on Listing Rule 10.12, exception 2 to permit Mr Philip Re to sub-underwrite the Offer.

Neither the Underwriter nor any of the sub-underwriters will increase their shareholding to above 19.99% as a direct result of the issue of Shares under the Offer.

1.8 Lead Manager

CPS has been appointed as Lead Manager to the Entitlement Issue Offer. The terms of the appointment of the Lead Manager are summarised in Section 5.6 of this Prospectus.

1.9 Effect on control of the Company

The Underwriter and Sub-Underwriter are currently Shareholders of the Company and the extent to which Shares are issued pursuant to the Underwriting Agreement or Director Sub-Underwriting Agreement will increase the Underwriter's and Sub-Underwriter's voting power in the Company. The Underwriter is not a related party of the Company for the purpose of the Corporations Act. The Sub-Underwriter is a related party of the Company as the Sub-Underwriter is a Director of the Company. The Sub-Underwriter will underwrite on arm's length terms on the same basis as the unrelated Underwriter.

Neither the Underwriter, nor the sub-underwriters will receive an interest in excess of 19.99% of the issued capital of the Company as a result of the Underwriting Agreement and Director Sub-Underwriting Agreement.

The Underwriter's and Sub-Underwriter's present relevant interests and changes are set out in the table below and are based on the assumptions that:

1. the Underwriter takes up its full underwriting commitment (less the commitment of the Sub-Underwriter and subject to the 19.99% cap). Any remaining Shortfall securities will need to be placed with other sub-underwriters; and
2. the Underwriter and Sub-Underwriter accept their full entitlement under the Entitlement Issue Offer.

The table below does not factor in any New Options being issued to CPS pursuant to the Offers.

Event	Shares held by Underwriter	Voting power of Underwriter	Shares held by Philip Re	Voting power of Philip Re
Date of Prospectus	15,871,840	3.39%	7,000,000	1.49%
Completion of Entitlement Issue	187,003,825	19.99%	187,003,825	19.99%

Note:

- (i) As at the date of the Prospectus, the Underwriter holds 15,871,840 Shares in the Company indirectly via its associates as follows:
- (A) 13,731,840 Shares held by Cityscape Asset Pty Ltd <Cityscape Family A/C>;
 - (B) 1,140,000 Shares held by Sunset Capital Management Pty Ltd <Sunset Superfund A/C>; and
 - (C) 1,000,000 Shares held by Celtic Capital Pty Ltd <Celtic Capital No 4 A/C>.
- (ii) Percentages have been calculated on the basis of there being 467,743,433 Shares on issue at the date of this Prospectus and 935,486,866 at the close of the Offers, and on the basis that no Options have been exercised prior to completion of the Entitlement Issue Offer.

The number of Shares held by the Underwriter and the Sub-Underwriter and its voting power in the table above show the potential effect of the underwriting and sub-underwriting of the Entitlement Issue Offer (subject to the 19.99% cap). However, it is unlikely that no Shareholders will take up entitlements under the Entitlement Issue Offer. The underwriting and sub-underwriting obligations and therefore potential voting power of the Underwriter and Sub-Underwriter will reduce by a corresponding amount for the amount of entitlements under the Entitlement Issue Offer taken up by Shareholders. Note that the Underwriter's and Sub-Underwriter's exercise of the New Options under the Entitlement Offer, and CPS' exercise of the New Options under the Lead Manager Options Offer, will increase the voting power of Underwriter and Sub-Underwriter. Any relevant interest acquired by the Underwriter or Sub-Underwriter will also be diluted if any Optionholders exercise and convert their Options to Shares.

The Company and the Underwriter have confirmed that the Underwriter and any sub-underwriter or existing Shareholder will not increase its voting power to above 19.99% as a result of the Entitlement Issue Offer.

The Company, in consultation with the Underwriter, will ensure that the Entitlement Issue Offer complies with the provisions of Chapter 6 of the Corporations Act and are otherwise consistent with the policy guidelines contained in ASIC Regulatory Guide 6 and Takeovers Panel Guidance Note 17(**GN 17**).

There will be no change to any Shareholder's voting power as a result of the issue of the New Options. Where New Options are exercised into Shares, the voting power of the Shareholders who exercise the New Options will increase. The likelihood of New Options being exercised is dependent on the price of Shares from time to time until the New Options expire.

The Company considered GN 17 in seeking to put in place appropriate strategies to mitigate the potential control effects of the Entitlement Issue Offer. In the Board's opinion, in the current commercial environment and having explored all options, the underwriting by the Underwriter of a non-renounceable entitlement issue was the most commercially feasible option available to the Company in the context of the Company's current requirement for capital.

No Shares will be issued to an applicant under the Offers if the issue of Shares would contravene the takeover prohibition in section 606 of the Corporations Act.

By reference to paragraphs 8 and 9 of GN 17:

- (a) the Underwriter has and will continue to seek out sub-underwriters which will reduce the control impact;
- (b) sufficient time and detailed disclosure have been given to Shareholders and other investors to assess the Securities being offered; and
- (c) the acquisition of New Shares by the Underwriter is in its capacity as such pursuant to a negotiated Underwriting Agreement(i.e. it is not facilitation of a capital raising by a contract to subscribe for Shortfall before the Offer is made).

The Company has a clear need for funds which has not been contrived (noting paragraph 10 of GN 17), and having regard to all available options, the Company has considered that entering into the Underwriting Agreement with the Underwriter provides the Company with the highest degree of certainty in the time available that the Entitlement Issue Offer will be successful.

The Company did consider the issue of renounceability of the Entitlement Issue Offer. Having regard to paragraphs 19-22 of GN 17, the fact that the Entitlement Issue Offer is non-renounceable should not be considered a significant factor given the Company considers that a market for rights is unlikely (given low liquidity in trading of the New Shares) and the additional costs to make the Entitlement Issue Offer renounceable.

In light of the above, the Company considers that the structure of the Entitlement Issue Offer should not give rise to unacceptable circumstances.

1.10 Potential dilution

Shareholders should note that if they do not participate in the Entitlement Issue Offer, their holdings are likely to be diluted by approximately 50% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).

No immediate dilution will occur as a result of the issue of New Options under this Prospectus. However subsequent exercise of any or all of the New Options will result in dilution. Assuming all New Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Offers are likely to be diluted by an aggregate of approximately 70.82% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus and assuming no other Options on issue are exercised into Shares).

Examples of how the dilution may impact Shareholders (not including the exercise of any Options) is set out in the table below:

Holder	Holding as at Record Date	% at Record Date	Entitlement	% if full Entitlement taken up	% if no Entitlement taken up
Shareholder 1	15,000,000	3.21%	15,000,000	3.21%	1.60%
Shareholder 2	10,000,000	2.14%	10,000,000	2.14%	1.07%
Shareholder 3	5,000,000	1.07%	5,000,000	1.07%	0.53%
Shareholder 4	1,000,000	0.21%	1,000,000	0.21%	0.11%

Shareholder 5	500,000	0.11%	500,000	0.11%	0.05%
---------------	---------	-------	---------	-------	-------

Note: The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted are underwritten by the Underwriter or Sub-Underwriter. Percentages have been calculated on the basis of there being 467,743,433 Shares on issue at the date of this Prospectus and 935,486,866 Shares on issue on completion of the Entitlement Issue Offer. The table only shows the dilution effect of the Shares to be issued under the Entitlement Issue Offer and does not factor in the dilutionary effect upon the exercise of any New Options or securities under the Proposed Placement. Refer to Section 3.5 for further details of the Company's capital structure.

1.11 ASX Listing

Application for Official Quotation of the New Shares offered pursuant to this Prospectus will be made in accordance with the timetable set out at the commencement of this Prospectus. If ASX does not grant Official Quotation of the New Shares offered pursuant to this Prospectus before the expiration of three (3) months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any New Shares and will repay all application monies for the New Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the New Shares is not to be taken in any way as an indication of the merits of the Company or the New Shares offered for subscription under this Prospectus.

The Company will not apply for Official Quotation of the New Options issue pursuant to this Prospectus.

1.12 Issue of Securities

The Securities issued pursuant to the Offers will be allotted in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus.

Where the number of Securities issued is less than the number applied for, or where no allotment is made, surplus application monies will be refunded without any interest to the Applicant as soon as practicable.

Pending the allotment and issue of the Securities or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for the Securities issued under the Offers will be mailed in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus as soon as practicable after their issue.

1.13 CHES and Issuer Sponsorship

The Company is a participant in Clearing House Electronic Sub-Register System (**CHES**), for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of Securities allotted to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

1.14 Risks

As with any securities investment, there are risks associated with investing in the Company. The principal risks that could affect the financial and market performance of the Company are detailed in Section 2 of this Prospectus. The Securities on offer under this Prospectus should be considered speculative. Accordingly, before deciding to invest in the Company, investors should read this Prospectus in its entirety and should consider all factors in light of their individual circumstances and seek appropriate professional advice.

1.15 Overseas Shareholders

The Offers do not, and are not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Securities these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offers are not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

New Zealand

The Offers are not being made to the public in New Zealand other than to existing Shareholders with registered addresses in New Zealand to whom the Offers are being made in reliance on the *Financial Markets Conduct Act 2013* and the *Financial Markets Conduct (Incidental Offers) Exemption Notice 2021*.

This document has been prepared in compliance with Australian law and has not been registered, filed with or approved by any New Zealand regulatory authority. This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

Nominees and custodians

Shareholders resident in Australia or New Zealand holding Shares on behalf of persons who are resident in other jurisdictions are responsible for ensuring that applying for Securities under the Offers does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Application Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

1.16 Representations

The return of an Application Form or otherwise applying for Securities under the Offers will be taken by the Company to constitute a representation by the Applicant that it:

- (a) has received a printed or electronic copy of this Prospectus accompanying the Application Form and has read it in full;
- (b) agrees to be bound by the terms of this Prospectus and the Constitution;
- (c) has obtained all necessary approvals and complied with all relevant laws and regulations for the purposes of Section 1.15 (to the extent that they are applicable) and confirms its eligibility in respect of an offer of securities under the applicable Offer;
- (d) declares that all details and statements in the Application Form are complete and accurate;
- (e) declares that it is over 18 years of age and has full legal capacity and power to perform all of its rights and obligations under the Application Form;
- (f) acknowledges that once the Application Form is returned or payment is made its acceptance may not be varied or withdrawn;
- (g) agrees to being issued the number of new Securities that it applies for (or such other number issued in accordance with this Prospectus);
- (h) authorises the Company to register it as the holder(s) of the Securities issued to it under the applicable Offer;

2. RISK FACTORS

2.1 Introduction

The Securities offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for Securities pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Securities.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

2.2 Company specific

2.2.1 Additional requirements for Capital

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing. The Company may undertake the Proposed Placement soon after the close of the Entitlement Issue Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

2.2.2 Climate Risk

There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:

- (a) the emergence of new or expanded regulations associated with the transitioning to a lower carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and
- (b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.

2.2.3 Exploration Risk

Potential investors should understand that mineral exploration and development are high-risk undertakings. There can be no assurance that exploration of the Company's projects, or any other tenements that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

The future exploration activities of the Company may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Company.

The success of the Company will also depend upon the Company having access to sufficient development capital, being able to maintain title to its projects and obtaining all required approvals for its activities. In the event that exploration programmes prove to be unsuccessful this could lead to a diminution in the value of the tenements, a reduction in the cash reserves of the Company and possible relinquishment of the projects.

The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

2.2.4 Mine Development Risk

Possible future development of a mining operation at the Company's projects is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services.

If the Company commences production, its operations may be disrupted by a variety of risks and hazards which are beyond its control, including environmental hazards, industrial accidents, technical failures, labour disputes, unusual or unexpected rock formations, flooding and extended interruptions due to inclement or hazardous weather conditions and fires, explosions or accidents. No assurance can be given that the Company will achieve commercial viability through the development or mining of its projects and treatment of ore.

2.2.5 Kaolin and Silica Demand Risk

There is a risk that the kaolin and silica that may be produced by the Company does not meet market specifications, whether due to insufficient grade or impurities. For example, the Kaolin market has demanding major element specifications for parameters such as purity (e.g. Al₂O₃ content) in addition to tight specifications for trace elements such as Fe, K, Na, and T. Another risk for Kaolin could be the brightness levels of the Kaolin, ie for the paper industry.

Failure to meet specifications may result in selling the products at discounted rates, or not finding markets at all. Other risks for silica may include particle size distribution and physical strength (crush resistance) as in the case of proppants for the oil industry. Industrial

minerals are generally considered to be bulk commodities and are therefore susceptible to distance to market and transport costs; therefore, logistics may pose a risk to supplying markets.

Prices for silica and kaolin will be largely subject demand in Asia. Such a decline could have a material adverse effect on the Company's business, results of operations and financial conditions generally

2.2.6 Supply Agreement Risk

The Company does not currently have supply agreements in place with respect to product that may be extracted from its projects and may not be able to negotiate supply agreements on terms that permit the Company to finance and commence development of its projects.

Supply agreements involving the sale of silica sand and kaolin products typically have market-based pricing mechanisms. Accordingly, in periods with decreasing prices, results of operations may be lower than if agreements had fixed prices. In periods with increasing prices, some agreements may permit an increase in prices; however, some customers may elect to cease purchasing products if they do not agree with price increases or are able to find alternative, cheaper sources of supply. Furthermore, certain volume-based supply agreements may influence the ability to fully capture current market pricings. These pricing provisions may result in significant variability in results of operations and cash flows from period to period.

If the Company is successful in developing its projects to the mining of product, the Company is likely to sell products to customers on a purchase order basis and pursuant to supply agreements that will contain customary termination provisions for bankruptcy related events and uncured breaches of the applicable agreement. If any of these major customers substantially reduces or altogether ceases purchasing products and the Company is not able to generate replacement sales into the market, the business, financial condition, and results of operations could be adversely affected for a short-term period until such time as the Company can generate replacement sales in the market.

2.3 Industry Specific

2.3.1 Exploration Cost

The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

2.3.2 Exploration Success

The mining tenements are at various stages of exploration, and potential investors should understand that mineral exploration and development are high-risk undertakings.

There can be no assurance that exploration of the mining tenements, or any other licenses that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

There is no assurance that exploration or project studies by the Company will result in the definition of an economically viable mineral deposit or that the exploration tonnage estimates and conceptual project developments discussed in this Prospectus are able to be achieved.

The exploration costs of the Company are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect the Company's viability.

2.3.3 Resource, Reserves and Exploration Targets

The Company has identified a number of exploration targets based on geological mapping and interpretations, geophysical data, geochemical sampling and historical drilling. Insufficient data however, exists to provide certainty over the extent of the mineralisation. Whilst the Company intends to undertake additional exploratory work with the aim of defining an economic resource, no assurances can be given that additional exploration will result in the determination of a resource on any of the exploration targets identified. Even if a resource is identified no assurance can be provided that this can be economically extracted.

Reserve and Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when initially calculated may alter significantly when new information or techniques become available. In addition, by their very nature Resource and Reserve estimates are imprecise and depend to some extent on interpretations which may prove to be inaccurate.

2.3.4 Operations

The operations of the Company may be affected by various factors, including failure to locate or identify mineral deposits, failure to achieve predicted grades in exploration and mining, operational and technical difficulties encountered in mining, difficulties in commissioning and operating plant and equipment, mechanical failure or plant breakdown, unanticipated metallurgical problems which may affect extraction costs, adverse weather conditions, industrial and environmental accidents, industrial disputes and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

No assurances can be given that the Company will achieve commercial viability through the successful exploration and/or mining of its tenement interests. Until the Company is able to realise value from its projects, it is likely to incur ongoing operating losses.

2.3.5 Environmental

The operations and proposed activities of the Company are subject to Australian laws and regulations concerning the environment. As with most exploration projects and mining operations, the Company's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. It is the Company's intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events, such as unpredictable rainfall or fires may impact on the Company's ongoing compliance with environmental legislation, regulations and licences. Significant liabilities could be imposed on the Company for damages, cleanup costs or penalties in the event of certain discharges into the environment, environmental damage caused by previous operations or non-compliance with environmental laws or regulations.

The disposal of mining and process waste and mine water discharge are under constant legislative scrutiny and regulation. There is a risk that environmental laws and regulations become more onerous making the Company's operations more expensive.

Approvals are required for land clearing and for ground disturbing activities. Delays in obtaining such approvals can result in the delay to anticipated exploration programmes or mining activities

2.3.6 Native Life

The Native Title Act recognises and protects the rights and interests in Australia of Aboriginal and Torres Strait Islander people in land and waters, according to their traditional laws and customs. There is significant uncertainty associated with Native Title in Australia and this may impact on the Company's operations and future plan.

One granted tenement forming the Wiltshire Kaolin Project (E 70/5216) overlaps with land that is subject to claims of native title and to Indigenous Land Use Agreements (ILUAs), which required that the Company enter into an Aboriginal heritage agreement with the Indigenous group the subject of the ILUA prior to commencing exploration activities over those parts of the Wiltshire Kaolin Project that overlap the areas covered by the ILUAs.

The existence of a native title claim or an ILUA is not an indication that native title in fact exists on the land covered by the claim, as this is a matter ultimately determined by the Federal Court. The Company must also comply with Aboriginal heritage legislation requirements which require heritage survey work to be undertaken ahead of the commencement of mining operations.

2.4 General Risks

2.4.1 Economic

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

2.4.2 Market Conditions

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (a) general economic outlook;
- (b) introduction of tax reform or other new legislation;
- (c) interest rates and inflation rates;
- (d) changes in investor sentiment toward particular market sectors;
- (e) the demand for, and supply of, capital; and
- (f) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

2.4.3 Litigation Risks

The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position.

The Company is not currently engaged in any litigation.

2.4.4 Dividends

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

2.4.5 Taxation

The acquisition and disposal of Securities will have tax consequences, which will differ depending on the individual financial affairs of each investor. All existing and prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Securities from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Securities offered under this Prospectus.

2.4.6 Reliance on Key Personnel

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

2.4.7 Economic Conditions and other Global or National Issues

General economic conditions, laws relating to taxation, new legislation, trade barriers, movements in interest and inflation rates, currency exchange controls and rates, national and international political circumstances (including outbreaks in international hostilities, wars, terrorist acts, sabotage, subversive activities, security operations, labour unrest, civil disorder, and states of emergency), natural disasters (including fires, earthquakes and floods), and quarantine restrictions, epidemics and pandemics, may have an adverse effect on the Company's operations and financial performance, including the Company's exploration, development and production activities, as well as on its ability to fund those activities.

General economic conditions may also affect the value of the Company and its market valuation regardless of its actual performance.

Specifically, it should be noted that the current evolving conflict between Ukraine and Russia is impacting global macroeconomics and markets generally. The nature and extent of the effect of this conflict on the performance of the Company and the value of its Shares remains unknown. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused by the conflict between Ukraine and Russia and overall impacts on global macroeconomics. Given the situation is continually evolving, the outcomes and consequences are inevitably uncertain.

4. RIGHTS ATTACHING TO SECURITIES

4.1 Rights and liabilities attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to the Shares. All New Shares issued under this Prospectus (and on exercise of the New Options) will rank equally in all respects with the Company's existing Shares.

This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice. Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

(a) General meeting and notices

Each Eligible Shareholder is entitled to receive notice of, and to attend and vote at, general meetings of the Company and to receive all notices, accounts and other documents required to be sent to Shareholders under the Constitution, the Corporations Act or the Listing Rules.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at general meetings of Shareholders or classes of Shareholders:

- (i) each eligible Shareholder entitled to vote, may vote in person or by proxy, attorney or representative, or if a determination has been made by the Board in accordance with the Constitution, by post, fax, electronic or other means approved by the Board and in accordance with the Constitution;
- (ii) on a show of hands every person present who is an eligible Shareholder or a proxy, attorney or representative of an eligible Shareholder has one vote; and
- (iii) on a poll, every person present who is an eligible Shareholder or a proxy, attorney or representative of an eligible Shareholder shall, in respect of each fully paid share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote per Share, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Issues of further Shares

Without prejudice to any special rights previously conferred on the holders of any existing Shares or class of Shares, unissued Shares shall be under the control of the Directors and, subject to the Corporations Act, the Listing Rules and the Constitution, the Directors may at any time issue such number of Shares either as ordinary Shares or Shares of a named class or classes (being either an existing class or a new class) at the issue price that the Directors determine and with such preferred, deferred, or other special rights or such restrictions, whether with regard to dividend, voting, return of capital or otherwise, as the Directors shall, in their absolute discretion, determine.

(d) **Variation of Rights**

If at any time the share capital of the Company is divided into different classes of Shares, the rights attached to any class (unless otherwise provided by the terms of issue of the Shares of that class) may be varied, whether or not the Company is being wound up, with the consent in writing of the holders of three quarters of the issued Shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the Shares of the class. Any such variation of rights shall be subject to Part 2F.2 of Chapter 2F of the Corporations Act. The provisions of the Constitution relating to general meetings shall apply so far as they are capable of application and with necessary alterations to every such separate meeting except that a quorum is constituted by two persons who together hold or represent by proxy not less than one-third of the issued Shares of the class.

(e) **Transfer of Shares**

Subject to the Constitution, Shareholders may transfer any Share held by them by:

- (i) an ASX Settlement Transfer or any other method of transferring or dealing in Shares introduced by ASX or operated in accordance with the ASX Settlement Operating Rules or Listing Rules and in any such case recognised under the Corporations Act; or
- (ii) an instrument in writing in any usual or common form or in any other form that the Directors approve.

(f) **Dividend rights**

Subject to and in accordance with the Corporations Act, the Listing Rules, the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time decide to pay a dividend to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares. The Directors may rescind a decision to pay a dividend if they decide, before the payment date, that the Company's financial position no longer justifies the payment.

Subject to the Constitution, a dividend in respect of a Share is payable to the person registered as the holder of that share:

- (i) if the Directors have fixed a time for determining entitlements to the dividend, at that time; and
- (ii) in any other case, on the date on which the dividend is paid.

The Company is not required to pay any interest on a dividend.

(g) **Winding up**

Subject to the rights of Shareholders (if any) entitled to Shares with special rights in a winding-up and the Corporations Act all monies and property that are to be distributed among Shareholders on a winding-up, shall be distributed in proportion to the Shares held by them respectively, irrespective of the amount paid-up or credited as paid-up on the Shares.

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the

property of the Company, and may for that purpose set a value as the liquidator considers fair upon any property to be so decided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders. No member is obliged to accept any Shares, securities or other assets in respect of which there is any liability.

(a) **Entitlement**

(b) **Exercise Price**

Subject to paragraph (j), the amount payable upon exercise of each New Option is \$0.002 (**Exercise Price**).

(c) **Expiry Date**

Each New Option will expire at 5:00 pm (WST), three (3) years from the date of issue (**Expiry Date**). A New Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

The New Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(e) **Notice of Exercise**

The New Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each New Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(f) **Exercise Date**

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each New Option being exercised in cleared funds (**Exercise Date**).

Following the Exercise Date and within the time period specified by the ASX Listing Rules, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of New Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- (ii) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and

- (iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the New Options.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering securities in an entity that is not already listed on a stock exchange. Specifically, like all listed companies, the Company is required to continuously disclose to the market any information it has which a reasonable person would expect to have a material effect on the price or the value of the Company’s securities.

Price sensitive information is publicly released through ASX before it is disclosed to Shareholders and market participants. Distribution of other information to Shareholders and market participants is also managed through disclosure to ASX. In addition, the Company posts information on its website after the ASX confirms an announcement has been made, with the aim of making the information readily accessible to the widest audience.

In general terms, a “transaction-specific prospectus” is only required to contain information in relation to the effect of the issue of securities on the Company and the rights and liabilities attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position and performance, profits and losses or prospects of the issuing company.

As a disclosing entity under the Corporations Act, the Company states that:

- (a) it is subject to regular reporting and disclosure obligations;

- (b) copies of documents lodged with ASIC in relation to the Company may be obtained from, or inspected at, an office of ASIC; and

- (c) the rights and liabilities attaching to the Securities the subject of this Prospectus; and

As at the date of this Prospectus, Directors intend to participate in the Entitlement Issue Offer. However, the Directors will ensure that their participation under the Entitlement Issue Offer does not result in them breaching section 606 of the Corporations Act.

Upon completion of the Offers and assuming full sub-underwriter commitments are satisfied via the issue of Securities and the Directors take up their full Entitlements under the Entitlement Issue Offer (assuming no Options are exercised and subject to the 19.99% cap in the Director Sub-Underwriting Agreement), this represents a maximum potential shareholding of:

5.9 Related party transactions

There are no related party transactions entered into in respect of the Offers that have not otherwise been disclosed in this Prospectus.

- (a) obtain the approval of the public company's members in the manner set out in sections 217 to 227 of the Corporations Act; and
